##### In case of skin contact

**In case of contact, immediately wash skin with soap and copious amounts of water.** Remove all contaminated clothing immediately. In case of skin irritation or rash: Seek medical advice/medical help.

##### In case of eye contact

In case of contact with eyes, flush with copious amounts of water for at least 15 minutes. Assure adequate flushing by separating the eyelids with fingers. Call a physician if symptoms persist.

##### If swallowed

If swallowed, wash out mouth with water provided person is conscious. Drink 1 glass of water in small sips (dilution effect). If you feel unwell, seek medical advice/medical help.

#### **8.2. Exposure controls**

##### **Appropriate engineering controls**

General industrial hygiene practice.

##### **Personal protective equipment**

##### **Eye/face protection**

Safety glasses with side protection. Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

##### **Skin protection**

Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands. The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the standard EN 374 derived from it.

##### **Body Protection**

Use impervious clothing, the type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

##### **Respiratory protection**

If, according to the risk assessment, air-purifying respiratory protection is required, a full face mask with a multi-purpose combination filter (US) or with filter type ABEK (EN 14387) must be used in addition to the technical measures. If the respiratory protective device is the only protective measure, a self-contained breathing apparatus with a full face mask should be used.

Respiratory protective devices and components must be tested and approved according to appropriate government standards such as NIOSH (US) or CEN (EU).
